

The Swedish Institution of Rubber Technology Annual meeting and conference 2015 April 23-24 in Jönköping

Invitation

The Swedish Institution of Rubber Technology invites you to annual meeting and conference on April 23-24. It is to be held in conjunction with the fair Elmia Polymer in Jönköping. The theme of the conference is process, which includes production of rubber and rubber products with emphasis on processing machinery, process optimisation and process control.

Conference dinner, April 23.

You are invited to conference dinner on Thursday April 23 at *TEGEL Matbar Galleri*, address: Tändsticksgränd 12-14 in Jönköping www.galleritegel.se. Those who are not participating in the conference, but are exhibitors on the fair, are equally welcome.

Conference speakers do not pay for participating in the conference or the dinner, but are required to register.

Welcome to Jönköping.

SGF's program committee

Elmia Congress & Concert Hall, entrance 6 "Konferens" or via connections from fair floor.

11:30 - 12:00 Presentation **at fair floor**
12:00 - 13:00 Lunch
13:00 - 14:45 Presentations
14:45 - 15:15 Coffee
15:15 - 17:00 Presentations
17:00 - SGF Annual meeting
19:00 - Dinner

April 24

09:15 - 10:00 Presentations
10:00 - 10:30 Coffee
10:30 - 12:00 Presentations
12:00 - Finishing lunch

The Elmia Polymer fair is arranged every third year. 2015 the fair will be held for the third time and it takes place in Jönköping April 21-24.

Presentation at SGF conference at Elmia Polymer

April 23

- 11:00-11:15 Registration
- 11:30-12:00 Presentation at fair floor (in Swedish)
Johan Hultman, Umetrics
"Processförbättringar genom multivariat dataanalys"
- 12:00-13:00 Lunch
- 13:00-13:30 Stefan Scheibe, DESMA
"Modern tools for rubber injection molding"
- 13:30-14:00 Alessandro Gallo, MARIS
"Continuous rubber recycling using a co-rotating twin screw extruder"
- 14:00-14:45 "Devulcanisation of rubber"
Jonathan Teixeira, REP
- 14:45-15:15 Coffee break
- 15:15-16:15 Johan Hultman, Umetrics
"Att förstå sina produkter och processer med hjälp av multivariat dataanalys" (in Swedish)
- 16:15-17:00 Richard F. Thoma, Brabender
"How laboratory process instrumentation can be utilized to enhance the development of rubber compounds"
- 17:00-18:00 SGF annual meeting

April 24

- 9:15-10:00 Klaus Hillebrand, Colmec
"Latest developments in Rubber and Silicone (HTV) Compounding and Straining technologies"
- 10:00-10:30 Coffee break
- 10:30-11:00 Klaus Hillebrand, Colmec
"State of Art in Extrusion and Curing Technologies for Rubber and HTV Silicone"
- 11:00-11:30 Peter Vogl, LWB Steintl GmbH & Co. KG
"Potential of cost reduction at the rubber industry"
- 11:30-12:00 Sebastian Fritsch, Schill + Seilacher "Struktol" GmbH
"Achieving better processing of silica filled compounds"
- 12:00-13:00 Lunch

Registration
